Welcome to PixelTech Solutions

PixelTech Solutions is a technology-driven company specializing in custom digital transformation services.
We build scalable, secure, and intelligent solutions to help startups and enterprises thrive in the digital era.

Our Core Services

1. Web Development

- Responsive website design using React, Next.js, and TailwindCSS.
- Backend expertise in Node.js, Django, and Laravel.
- SEO optimization and performance tuning for better reach.

2. Mobile App Development

- Cross-platform mobile apps using Flutter and React Native.
- Native Android (Kotlin) and iOS (Swift) solutions.
- Integration with cloud and IoT platforms.

3. AI and Automation

- AI-driven chatbots, process automation, and predictive analytics.
- Custom GPT model fine-tuning for business workflows.
- Computer vision and NLP-based automation systems.

4. Cloud and DevOps

- AWS, Azure, and Google Cloud deployment services.
- CI/CD setup, Docker, and Kubernetes orchestration.
- Scalable infrastructure management and monitoring.

Why Choose Us

- Over 10 years of experience in enterprise software development.
- Team of certified engineers, designers, and AI specialists.
- Focused on ROI-driven technology solutions.
- Transparent project management and agile methodologies.
